CESSCO has been doing business in the Northwest for over 40 years. We began in 1975 as a small sales and service shop with 5 employees, and have grown to over 40 employees in Portland and Kent. Our focus is to provide the best quality light construction equipment to local contractors, municipalities, public utilities and other specialized trades. We have an internet department that services North America and overseas. We constantly evaluate our product lines and industry options with the goal of offering the best solutions for our customers' needs. We strive to provide quality service to our customers through our informed sales staff and factory trained technicians. This commitment has earned CESSCO unique status with many of our major manufacturers (*based on calendar year 2015*):

- We are one of only 12 elite dealers nationwide with Multiquip.
- We are the largest Multiquip dealer west of the Rocky Mountains.
- We are the largest dealer for ICS products in North America.
- We are the largest Diamond Products dealer in the Northwest.
- We are the largest Husqvarna construction equipment dealer in the Northwest.
- We are the largest Tsurumi Pump dealer in the Northwest.
- We are a top dealer in the Northwest for Honda pump and power equipment.
- We are a top dealer in the Northwest for Stihl construction equipment.

We have earned these achievements by providing top quality customer service. CESSCO employs factory-certified service technicians for all maintenance and repairs. We generally have similar rental equipment available to keep our customers on the job when their equipment is down. We encourage our staff to constantly learn more about our products. CESSCO wants our customers to call us first, and if we can't provide the solution, we strive to tell them who can.

Locally owned and operated, CESSCO is a regular sponsor of many local events and organizations from Dozer Days to youth sports teams. We encourage our staff to be active in their communities, allowing flexible work schedules to participate.

With top standing among many manufacturers, we strive to maintain a balance of fair pricing and quality service. CESSCO realizes that our competitors sometimes sell for less. What our competitors can't always provide is the total service that CESSCO brings to our customers. We strongly believe that we offer the best overall value for the life of the equipment by providing up front expert advice, proven quality equipment, parts and quality service. "*We Service What We Sell.*" We back up this commitment with manufacturer warranty support, parts, rental equipment (depending on availability), and pickup and delivery service.
