CHANGER**

DEEP CUTS SQUARE CORNERS TIGHT SPACES

ABOUT ICS

Prior to 1990, Diamond Chain Technology and concrete cutting chain saws simply didn't exist. Introduce ICS and twenty years later, having invented and pioneered the technology, ICS remains the world leader in the category. For the past two decades, ICS has engaged a relentless pursuit of product innovation and a commitment to continually deliver the right product for the job. We've been changing the game since our original inception and are looking forward to the next twenty years.

Headquartered in Portland, Oregon as a division of Blount International, ICS also maintains a sales and distribution office in Belgium to help serve our global network of customers covering more than 70 countries. All of which are backed by a comprehensive support system of factory trained personnel and service centers.

If cutting concrete, stone, masonry, or even utility pipe is your game - ICS has the game changing technology for you. Visit us at icsbestway.com.

PRODUCT HISTORY

Whether it is pioneering new concrete cutting technology, launching the world's first gas-powered concrete chain saw or developing a better way to cut ductile iron pipe, ICS® has a long history of innovation, starting with an R&D exercise within Blount, Inc. that led to its first patent for Diamond Chain Technology (DCT™) in 1990. A year later, the 801H hydraulic saw advanced the launch of the ICS brand in the USA and Europe.

Over the course of two decades, ICS continued to leverage its industry knowledge and unique expertise to take the science of DCT in new and inventive directions. 1994 saw the birth of the first saw to be completely designed by ICS, the 823H hydraulic saw. It was during this first decade that ICS also developed and unveiled the 623G, the first gasoline-powered concrete chain saw.

In 1996, ICS used special grade diamonds and stronger chain chassis elements to create the first diamond chain engineered specifically for professional concrete cutters. This was followed by the patented SealPRO® o-ring technology in 2000, a major improvement that advanced DCT to a new level of durability and ease of use. In 2008, ICS continued its tradition of ingenuity by launching FORCE4™, the toughest diamond chain technology ICS has ever created, paving the way for the 880F4 saw that same year and the new CWS-200, track mounted saw and new PowerGrit® Utility Saw Chain for cutting ductile iron pipe, both introduced in 2010.

CHAIN SELECTION

Diamond chains are not all created equal, so insist on Diamond Chains from ICS®, the people who invented the technology. As the inventors of Diamond Chain Technology, ICS is committed to continually improving the quality and versatility of this important advance in concrete cutting; chains specifically designed for different saw types as well as the many different materials you encounter on the job. Choosing the right chain for your needs is essential to getting the best value for your purchase.

Diamond Chain Technology

MAX Series Diamond Chain Segments designed for general use Laser welded to patented chain chassis Contains patented SealPRO® O-ring technology for longer life Available for all ICS GC gas-powered saws Segment types for general and specialty applications

ProFORCE™ Series Diamond Chain Strongest, most durable, patented chain design Laser welded diamond segments Contains SealPRO O-ring technology for longer life Designed for heavy, professional use Available for hydraulic and gas powered saws

PowerGrit®

PowerGrit® Utility Saw Chain New patent pending chain design Cuts ductile iron pipe in the trench Faster, easier and safer than other methods Cut from a single position Reduces excavation Saves labor Reduces operator effort Reduces total time to complete the cut

GAS POWERED SAWS

680GC

- > 80 cc, 2-Stroke engine
- > 5.6 hp
- > 21 lbs (9.6 kg)
- > 12 or 14 in (30 or 35 cm) guidebars

680GC Gas Saw

680GC GAS SA

P/N	DESCRIPTION 680GC - 80 CC GAS POWERED SAW	Cessco Price
545090	680GC Gas Saw Powerhead	\$1,015.75
545058	680GC-12 Gas Saw Package, with 12 in (30 cm) Guidebar & TwinMax-29 Chain	\$1,270.75
545099	680GC-14 Gas Saw Package, with 14 in (35 cm) Guidebar & TwinMax-32 Chain	\$1,338.75

Cessco Sale: Add a 2nd Chain to either above package for \$100.00

695GC Gas Saw

695GC GAS SA

P/N	DESCRIPTION 695GC - 94 CC GAS POWERED SAW	Cessco Price
544106	695GC Gas Saw Powerhead	\$1,636.25
544107	695GC-14 Gas Saw Package, with 14 in (35 cm) Guidebar & TwinMAX-32 Chain	\$1,993.25
544108	695GC-16 Gas Saw Package, with 16 in (40 cm) Guidebar & TwinMAX-35 Chain	\$1,993.25

Cessco Sale: Add a 2nd Chain to either above package for \$150.00

695F4 Gas Saw with FORCE4

695F4 GAS SA

P/N	DESCRIPTION 695F4 - 94 CC GAS POWERED SAW	Cessco Price
545089	695F4 Gas Saw Powerhead (Guide Bar and Chain sold separately)	\$1,636.25

Cessco 14 Inch Package (Powerhead, 14 Inch Bar & ProFORCE Diamond Chain) - \$2,337.50

Cessco 15 Inch Package (Powerhead, 16 Inch Bar & ProFORCE Diamond Chain) - \$2,422.50

Cessco Sale: Add a 2nd Chain to either above package for \$200.00

For Best Results Use ICS 2-Stroke Oil

P/N	DESCRIPTION	Cessco Price
505882	2-Stroke Oil, 25:1 Mix, 5.2 oz (158 ml) Bottles (6-pack)	\$18.00

Order online at www.cessco.us or call Toll Free 1-800-882-4959

695GC

- > 94 cc, 2-Stroke engine
- > 6.4 hp
- > 21 lbs (9.6 kg)
- > 14 or 16 in (35 or 40 cm) guidebars

695F4

- > All the benefits of a 695GC
- > PLUS the ability to operate ProFORCE™ diamond chains - the strongest chains in the business.
- > Also works with PowerGrit® Chain

CWS - 200 CHAIN WALL SAW

THE BEST OF BOTH WORLDS

The CWS-200 Chain Wall Saw combines ICS® Diamond Chain Technology with a mechanized, track-mounted, hydraulic-powered saw design for Professional Sawing and Drilling Contractors, allowing deep cutting without overcuts and less overall effort than other methods.

The CWS-200 is compact and lightweight, at only 75 lbs (34 kg), for easier mobility on the job, and provides a one-tool approach to completing a full opening with square corners. The ability to mount the system to industry standard 360 track, combined with the capabilities of a chain saw offers the additional advantages of increased cutting speed, improved ergonomics and significantly reduced operator effort.

CWS-200 CHAIN WALL SAW

Mounts to a 360 Track | 25 gpm (95 lpm) | Two cutting lengths available | Only 75 lbs (34 kg)
 Provides single-tool approach | Increased cutting speed | Reduced operator effort

C S-200 CHAIN A SA

P/N	DESCRIPTION	Cessco Price
539926	CWS-200 Chain Wall Saw, with 12 in (30 cm) Guard	\$12,750.00
540366	CWS-200 Chain Wall Saw, with 18 in (45 cm) Guard	\$12,750.00

C S-200 CHAIN A SA GUIDEBARS & DIAMOND CHAIN

12 INCH	P/N	DESCRIPTION	Cessco Price
	5 5	FORCE4 CWS Guidebar - 12 in (30 cm)	\$165.75
DIAMOND CHAIN			
	535900	ProFORCE-CWS Diamond Chain - 12 in (30 cm)	\$803.25

18 INCH	P/N	DESCRIPTION	Cessco Price
	5 5 5	FORCE4 CWS Guidebar - 18 in (45 cm)	\$250.75
DIAMOND CHAIN			
	535902	ProFORCE-CWS Diamond Chain - 18 in (45 cm)	\$888.25

FEATURES

- Mounts to 360 industry standard track
- Specialized sandwich segment chain
- Jet-Fit® Guidebar
- Compact
- Lightweight

BENEFITS

- Confined spaces
- Deep corner cuts
- Operator safety
- Improved time to complete job
- No blade changes in deep cuts
- Easier/cleaner core removal
- Accuracy of cut vs. hand-held
- Less operator effort
- Chains lighter than blades
- Easier mobility on & off the jobsite
- Simplified set-up and attachment

UTILITY SAW CHAIN

POWERGRIT[®]
UTILITY SAW CHAIN

NEVER CUT PIPE THE SAME WAY AGAIN

PowerGrit[®] Utility Saw Chain is a revolutionary cutting product designed to change the way the job gets done. From ductile iron to plastic pipe, PowerGrit will get you in and out of the job faster, easier and safer than other methods. Utilizing a brazed layer diamond coating on a patent pending chain design, coupled with an extremely durable chain platform, PowerGrit technology provides dramatically improved access to the cut with far less excavation. The ability to cut all the way through the pipe from one side dramatically reduces the difficulty of cutting pipe in the trench. PowerGrit provides reduced excavation time, reduced operator effort and less total time to complete the job.

PowerGrit[®]

PowerGrit® UTILITY SAW CHAIN

Cuts Ductile Iron Pipe | Reduces excavation | Allows access from one side

Reduces operator effort | Available for Gas & Hydraulic Saws | Multiple cutting lengths available

880F4 PIPE CLAMP ACCESSORY

The 880F4 pipe clamp brings a new level of safety, accuracy and ease of use to the job. Mount to this clamp and dramatically reduce the effort of handling the saw, while providing a solid, stable cutting platform that also improves operator safety and the precision of the cut.

P/N	DESCRIPTION	Cessco Price
537640	PowerGrit Pipe Clamp System (880/853)	\$488.75
5	Pipe Clamp Axle (880/853)	\$106.25

PRODUCT BENEFITS

- Single-point access
- Reduces excavation
- Reduces labor time
- Reduced operator effort
- Easier to control
- Improved safety

MATERIALS

- Ductile iron pipe
- Cast iron pipe
- PVC pipe
- HDPE pipe
- Insituform pipe lining

ACCESSORIES

Work-proven accessories for every job! Whether it's power for a saw or a way to keep the jobsite cleaner, there is an ICS® accessory that gets the job done. 20 years of experience and a whole lot of ingenuity has gone into making these work-proven products an indispensable complement to your ICS concrete chain saw.

Portable Hydraulic Power

ICS® gas operated power packs are a dependable, self-contained source of hydraulic power that offer superior cooling capacity. The functional, ergonomic design makes them easily transportable to any job site.

P95 18 HP (13.5 kW) Powerpack Affordable hydraulic power Exceptional cooling capability Easy to carry package Adjustable to 5 gpm or 8 gpm (20 lpm or 30 lpm) operation Operating pressure approx 2000 psi

P110 23 HP (17 kW) Powerpack More powerful for larger tools Exceptional cooling capability Easy to carry package Adjustable to 8 gpm or 12 gpm (30 lpm or 45 lpm) operation Operating pressure approx 2000 psi
